CONGRATULATIONS ON YOUR PURCHASE OF A SUKKAHMART SUKKAH!

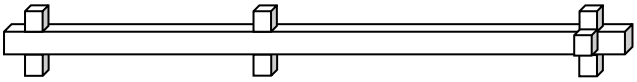

- **The Sukkah is made of strong material which is designed to fit around its frame with the utmost ease.**
- **The Sukkah features two roll-up windows and a zip-up door with nets to keep the bugs out.**
- **No screws, nails or tools are required. The poles are designed to interlock with each other.**

You will have the following parts:

Vertical poles

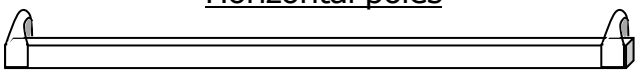

X 4 – for each size

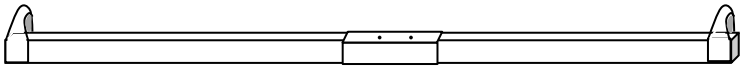

X 2 – for 3x4 (used to join 2x2M horizontal poles to make 4M)

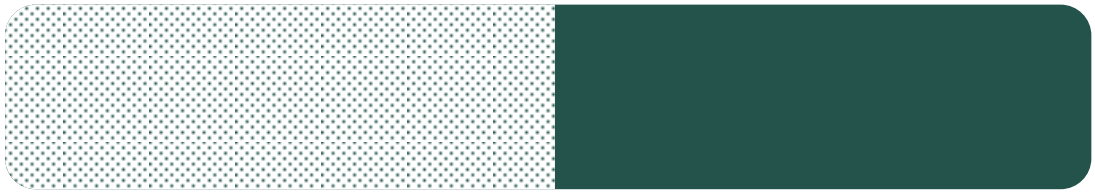

Horizontal poles

X 11 – for 2x2 & 3x4 X 6 – for 2x3

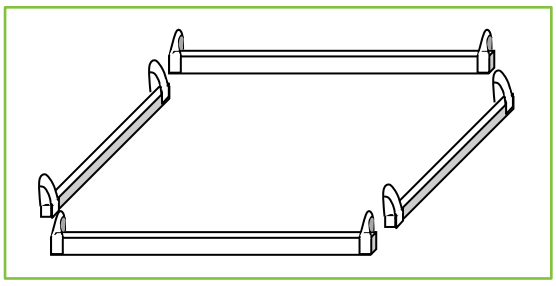

X 5 – for 2x3 X 7 – for 3x4
X 11 – for 3x3

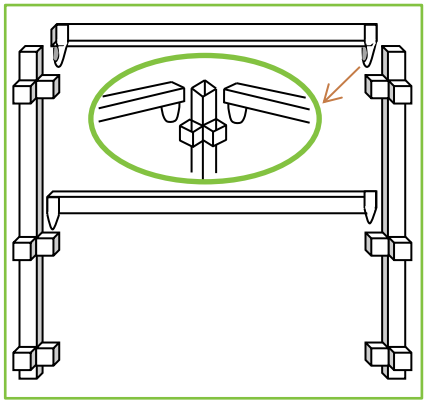

X 1
X 3

Step 1:

Lay out 4 horizontal poles (6 horizontal poles for 3x4) on the ground to form a square/rectangle.

Step 2:

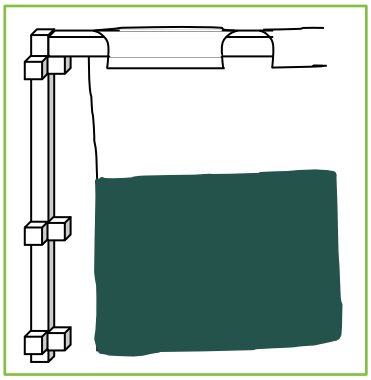

Take the vertical poles and join them together by inserting horizontal poles across the top and across the middle. The frame will stand on its own and will not fall over if all the wedges are properly inserted into the vertical poles.

Note: - Do not put a middle pole across the opening of your doorway.

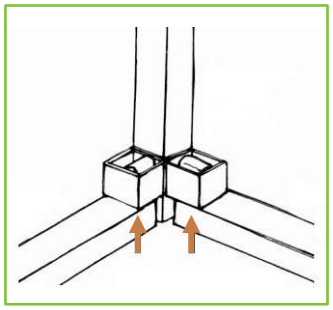

N.B. - the correct way up for the vertical poles is to have a smaller space between the bottom and the middle squares, and a bigger space between middle and top squares.

Step 3:

Unravel the material and place around your frame. Ensure that the door is in the correct position. Fold and fasten the velcro around the top poles.

Step 4:

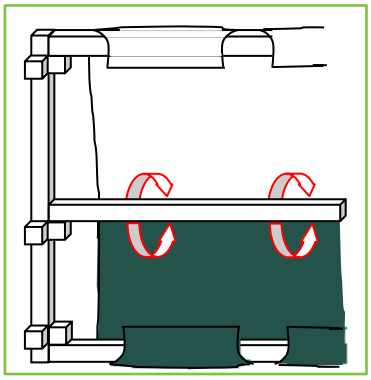

Now insert the bottom horizontal poles into the vertical poles.

Note: - **The notches must be inserted face up into the poles. Don't worry if they seem to fall out, they will be secured when the material is fastened around them.**

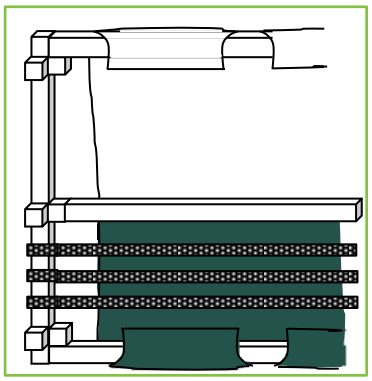

Fasten the velcro around the bottom poles.

Step 5:

Fasten all the Velcro Strips around the middle poles.

Step 6:

Take the black straps and secure one around one corner pole. Bring it around the pole and across to the next vertical pole and slip it through the grooves on the pole. Continue around your sukkah and secure it around the last corner pole with the velcro. Repeat this for all three straps.

Note: - Ensure that these straps are pulled taut. **This will make your sukkah kosher l'mehadrin.**

Your sukkah is now complete!

You can now roll on your Permanent Schach and decorate your Sukkah!
